

**NEW EDITION
FROM WESTVIEW PRESS!**

“No other work gives one such a sense of the scope and substance of the major traditions of feminist theory. This richly transformed new edition of *Feminist Thought* is an indispensable resource for those who want to understand the theoretical origins and complexities of contemporary feminist debates.”

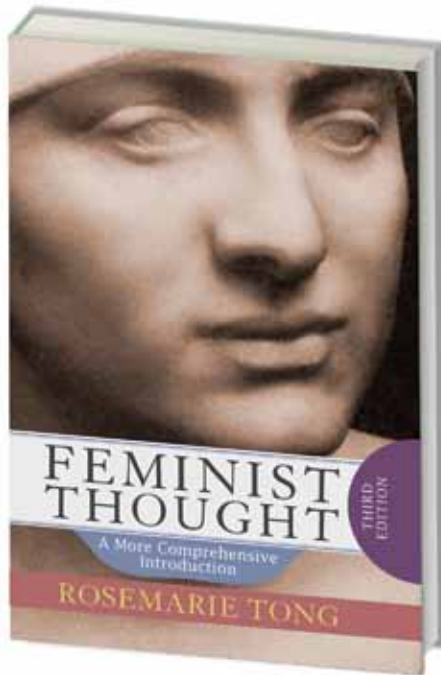

—Nancy Tuana, Penn State University

An illuminating guide to the diversity of feminism, this critically acclaimed text provides an eminently readable, critically acute overview of liberal feminism, radical feminism, Marxist and socialist feminism, psychoanalytic feminism, and ecofeminism.

Updates to the third edition include: a new chapter on care-focused feminism; an expanded examination of the interplay between multicultural and global feminism and postcolonial feminism; a revised chapter linking postmodern feminism to developments in third-wave feminism; new considerations of key feminist theorists, including Judith Butler and Martha Nussbaum; and an extensive, updated bibliography.
