POWER AND RESTRAINT

A SHARED VISION FOR THE U.S.—CHINA RELATIONSHIP

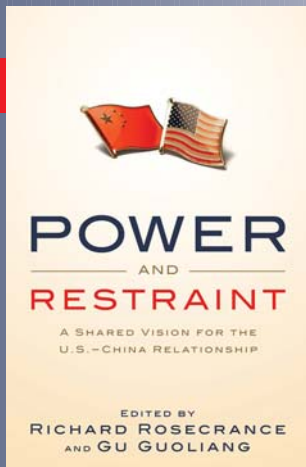

EDITED BY RICHARD ROSECRANCE AND GU GUOLIANG

Over several years, some of the most distinguished Chinese and American scholars have engaged in a major research project, sponsored by the China–U.S. Exchange Foundation (CUSEF), to address the big bilateral and global issues the two countries face. This group of scholars set out to reach a consensus on potentially contentious issues and to determine how the two nations can work together to achieve common goals. *Power and Restraint* gathers their important work in a single volume and finds that China and the U.S. can exist side by side and establish mutual understanding to better cope with the common challenges they face. This exciting new book:

- **Provides essential background information.** The first part places U.S.-China relations in historical context and overviews important topics, including economic interactions, military relations, and more.
- **Covers controversial, hot-button issues.** The second part addresses topics such as global warming, Taiwan, crisis management, WMDs, the future of U.S.–China relations, and more.
- **Features interdisciplinary perspectives.** Contributing scholars are experts in politics, economics, international security, and environmental studies.
