

# NEW EDITION!

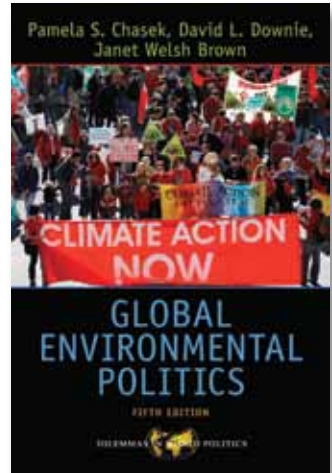

“A well-seasoned text, the best in its field, at the introductory and advanced level. . . . Clear, cogent, current, and comprehensive. . . . With more books like this, we stand a better chance of managing planet earth.”  
—David Rosenberg, Middlebury College

**Updated throughout, this comprehensive introduction to global environmental policy-making features:**

**New material—including an entirely new chapter.** Updated material addresses current concerns such as the increasing problems of climate change and biodiversity loss, and a new chapter looks at the future of environmental politics.

**Expanded coverage of the development of global environmental regimes.** Updated material covers the international toxic waste trade, the post-2012 climate change negotiations, outcomes of the 2009 IWC meeting, and more.

**New pedagogical tools.** Twenty-six new text boxes further explain important concepts and provide additional information on current topics and case studies.
