

New Edition from Westview Press!

“ This is a valuable resource for students studying Asian politics at the college level. It displays sensitivity to the influence of culture and history on contemporary politics, directs attention both to comparative analysis and the implications of globalization, and shows how the examination of Asian politics raises questions about Euro-American assumptions.”

— Jana Everett, University of Colorado Denver

Comparing Asian Politics offers an analysis of the unique and shared political features of India, China, and Japan. Featuring updated photos, tables, and graphs, the new third edition:

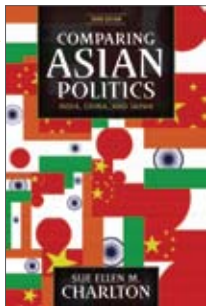

- ★ **Covers crucial topics** such as the significance of constitutions in the political process, the parliamentary system in Asia, the regionalization of politics, and the decay of one-party rule.
- ★ **Includes new discussion of the theoretical debate between democracy and development** with increased analysis of the political economy.
- ★ **Emphasizes globalization**, with special attention given to human rights, the environment, and regional security.
