

NEW FROM WESTVIEW PRESS!

“Seth McKee’s book is a major scholarly achievement. It advances our understanding of both the modern South and the House of Representatives. After offering a convincing explanation for the Republican realignment in the South, McKee demonstrates how this development has helped Democrats regain control of the Congress. This insightful and well-written book should be of great interest to scholars and students of American politics.”

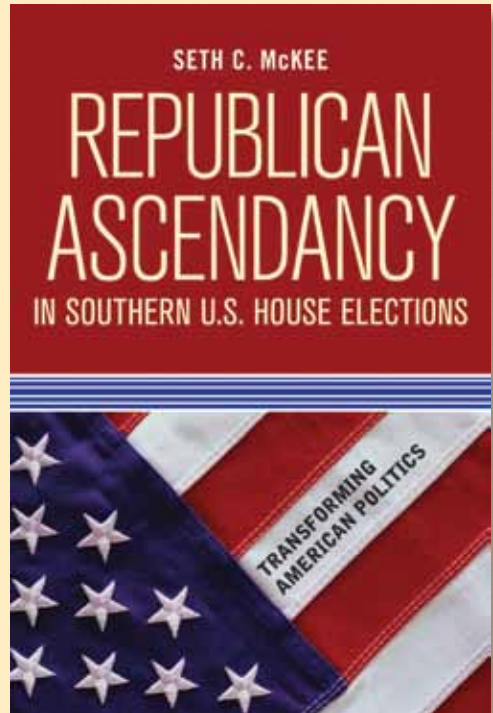

—Merle Black, Emory University,
coauthor of *Divided America*

Relying on existing and original data sources, this new text presents the most recent example of large-scale partisan change. In addition to serving as an accessible primer for courses on political parties, campaigns and elections, and Southern politics, *Republican Ascendancy in Southern U.S. House Elections* provides an original theoretical argument and an expansive view of why political change in the South has such strong implications for national politics today.
