

NEW FROM WESTVIEW PRESS!

"Interpreting the Middle East is both a timely guide through the richly variegated politics, cultures, histories, and economies of the region, and a lively set of arguments about the projections and distortions that continue to obscure its complexities from view. ... Fittingly prismatic and highly engaging."

—Roxanne L. Euben, Wellesley College

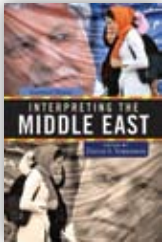

March 2010, 456 pages, 978-0-8133-4440-9, \$49.00, pb

Key features of this new, vibrant introduction to the Middle East include:

- Insightful and accessible discussions of central issues from **invited specialists** writing specifically for this book.
- Chapters organized by **five principal themes**—regional overview, politics, political economy, social contexts, and international dimensions—and **integrative part introductions** from the editor.
- Introductory chapters that provide an **essential background** on the history and population patterns of the region.
- **Topical chapters** that address headline-fresh issues, such as the aftermath of the Iraq war, Iran's regional ambitions, the Israeli–Palestinian conflict, and the global politics of Middle East oil.
