Practical Advice for Parents of Children with Mild or Severe Problems—
or Gifted Children with Weak Spots

THE LEARNING TREE

Overcoming Learning Disabilities
From the Ground Up

STANLEY I. GREENSPAN, MD
NANCY THORNDIKE GREENSPAN

The internationally admired author of *Engaging Autism* shows how to get to the roots of learning disabilities and unleash each child's intellectual potential.

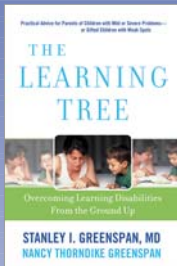

THE LEARNING TREE by **Stanley I. Greenspan, MD**, and **Nancy Thorndike Greenspan** features:

- A new approach to the understanding of learning problems, one that describes how to find the missing developmental steps that cause learning disability symptoms.
- Sections on finding and solving learning problems early.
- The useful metaphor of a tree to explain:
 - How children take in the world through what they hear, see, smell, and touch (the roots)
 - Thinking skills through which children grow both academically and socially (the trunk)
 - Children's basic abilities to read, write, do math, and organize their work (the branches)

A welcome new understanding of the roots of learning disabilities, **THE LEARNING TREE** is essential for students of early childhood education.

August 2010, 320 pages, ISBN: 978-0-7382-1233-3, \$26.00, hardcover

NEW FROM DA CAPO LIFELONG BOOKS

STANLEY I. GREENSPAN, MD, the world's foremost authority on clinical work with young children and Clinical Professor of Psychiatry and Pediatrics at George Washington University Medical School, died shortly after finishing his work on this book.

NANCY THORNDIKE GREENSPAN is the author of *The End of the Certain World*. This is the fourth book on which she has collaborated with her husband.
