

NEW EDITION FROM WESTVIEW PRESS!

Now in a revised fourth edition, this book examines the variety of ways U.S. citizens engage in their communities and American politics. In addition to evaluating acceptable and unacceptable discourse and activities, this text:

- **Features updates throughout:** New material addresses ACORN, the 2008 presidential election, and the Obama presidency.
- **Connects subject matter to students:** The author discusses the impact of recent events for college students and their conceptions of participation and citizenship. Examples of real-world activism also focus on groups involving college students.
- **Suggests practical solutions:** At a time when civic indifference is a national problem, this book offers ways for Americans to conquer their apathy toward government.
- **Provides balanced approach:** From militias on the right to violent pro-environment groups on the left, the author shows that neither side of the political spectrum has a lock on inappropriate political activism.
