

NEW IN PAPERBACK FROM PUBLICAFFAIRS

The Nobel Peace Prize-winner shows how the social business model can harness the entrepreneurial spirit to address poverty, hunger, and disease.

Muhammad Yunus, the practical visionary who pioneered microcredit and, with his Grameen Bank, won the 2006 Nobel Peace Prize, has developed a visionary new dimension for capitalism which he calls "social business." By harnessing the energy of profit-making to the objective of fulfilling human needs, social business creates self-supporting, viable commercial enterprises that generate economic growth even as they produce goods and services that make the world a better place.

Building Social Business:

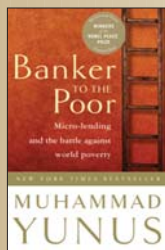

- Shows how social business has gone from being a theory to an inspiring practice, adopted by leading corporations, entrepreneurs, and social activists.
- Demonstrates how social business transforms lives.
- Offers practical guidance for those who want to create social businesses of their own.
- Explains how public and corporate policies must adapt to make room for the social business model.
- And shows why social business holds the potential to redeem the failed promise of free-market enterprise.
