This textbook offers updated and detailed descriptions of the key theories in contemporary public administration, from rational choice to postmodern approaches.

The new, second edition of
The Public Administration Theory Primer features

- A comprehensive introduction to the theory behind public administration.
- Extensive updates to provide the latest directions and developments in public administration, while retaining the thematic focus of the first edition.
- New material covering topics such as:
 - The rise of reporting as a means to hold bureaucracy accountable;
 - The continuing evolution of the “hollow state” or “shadow bureaucracy” and the rise of network theory;
 - New psychological/biological behavioral research with big implications for decision theory and rational choice.
- An expanded author team—Christopher W. Larimer and Michael J. Licari join veteran scholars H. George Frederickson and Kevin B. Smith to keep the book up to date on new developments in the field.

New Edition from Westview Press!

"The Public Administration Theory Primer
is the perfect starting point for any student
of public administration.
It provides a well docu-
mented overview of an
exceptional range of
topics." – Kenneth Meier,
Distinguished Professor
of Political Science,
Texas A&M University
and Professor of Public
Management, Cardiff
University in Wales
